

Hampshire RoamAbility

Hampshire RoamAbility

Rambles and social networking without barriers

We ramble regularly throughout the year, mainly in Hampshire and neighbouring counties, making particular use of the New Forest National Park and coastal areas.

Hampshire RoamAbility organises social events and encourages members to be actively involved.

We campaign to improve access to the countryside. We share known accessible routes, so we can get barriers removed.

Rambling in the New Forest

is a local group for people who want to ramble - either walking or using mobility scooters.

Some rambles are suitable for medium size scooters and heavy duty electric wheelchairs, others are for large all terrain scooters only.

Rambles are typically about 5 to 10 miles.

The locations are selected for their interest and absence of man made obstructions such as stiles, tight kissing gates, steps and narrow bridges.

Rambles are graded by difficulty, to enable you to decide whether they are suitable for you.

Walkers and experienced ramblers with or without a disability are very welcome to join us, as are families and friends.

You will need to be able to get yourself and your scooter to the start and cover the distance at a reasonable walking pace.

We can also help with advice on buying and transporting suitable scooters.

Picket Post, New Forest

Ballard Down and the Pinnacles, Dorset

For more information and to join us on a ramble please contact:
